The recovery of destroyed infrastructure of the enterprise of the fuel and energy complex (FEC) of Ukraine requires appropriate equipment, materials and specialized machinery.

Since March 2022 by order of the Ministry of Energy of Ukraine and according to the Resolution of the Cabinet of Ministers of Ukraine dated 22.07.2022 No. 824 "Some question of the receipt, distribution, use and accounting of humanitarian aid for satisfaction of energy needs in the conditions of martial law" JSC "Khmelnytskoblenergo" carries out a set of activities related to the development and implementation of projects and programs provision of humanitarian aid with the involvement of partners, receipt, accumulation, distribution and further transfer of humanitarian aid provided by foreign and by domestic donors for the enterprises (institutions, organizations) of energy sector of Ukraine, who are the ultimate beneficiaries of the humanitarian help.

When carrying out emergency repair and restoration works at all enterprises of the energy sector of Ukraine there is a need to equip emergency repair teams with various equipment, including brigade cars and special equipment and machinery, diesel generators, electrical and mechanical tools, means protection, etc.
